

CURRICULUM VITAE

NAME: Vreeman Daniel Jay

EDUCATION:

POSTDOCTORAL

Regenstrief Institute, Inc. NLM Medical Informatics Research Fellow 2003-2005

GRADUATE

Duke University School of Medicine Doctor of Physical Therapy (DPT) 2000-2003

UNDERGRADUATE

Cornell University,
College of Arts and Sciences Bachelor of Arts in Biological Sciences,
Program of Study in General Biology 1996-2000

FURTHER EDUCATION:

Indiana University Master of Science in Clinical Research 2003-2005

APPOINTMENTS:

ACADEMIC

Indiana University School of Health and Rehabilitation Sciences Visiting Assistant Research Professor of Physical Therapy 2005-2007

Indiana University School of Health and Rehabilitation Sciences Assistant Research Professor of Physical Therapy 2007

Indiana University School of Health and Rehabilitation Sciences Adjunct Assistant Professor 2008-2009

Indiana University School of Medicine, Division of General Internal Medicine and Geriatrics Assistant Research Professor 2008-2014

Regenstrief Institute, Inc. Research Scientist 2005-present

Regenstrief Institute, Inc. Associate Director of Terminology Services 2009-2016

Indiana University School of Medicine, Division of General Internal Medicine and Geriatrics Associate Research Professor 2014-present

Regenstrief Institute, Inc., Center for Biomedical Informatics Director, LOINC and Health Data Standards 2016-present

Indiana University School of Medicine, Division of General Internal Medicine and Geriatrics Regenstrief-McDonald Scholar in Data Standards 2016-present

NON-ACADEMIC

Clarian Health Partners	Staff Physical Therapist	2003-2005
Wishard Health Services	Staff Physical Therapist	2003-2005

LICENSURE AND CERTIFICATION, SPECIALTY BOARD STATUS:

Indiana, Physical Therapist License	#05008112A	2003-present
-------------------------------------	------------	--------------

PROFESSIONAL ORGANIZATIONS MEMBERSHIPS:

American Physical Therapy Association (APTA)		2000-present
Health Policy and Administration Section		2000-present
Education Section		2000-present
Research Section		2000-present
Private Practice Section		2000-2002
North Carolina State Chapter, Central District		2000-2003
Acute Care Section		2003-2005
Indiana State Chapter, Central District		2003-present
American Medical Informatics Association (AMIA)		2002-present
Health Level Seven (HL7)		2009-present
American College of Medical Informatics (ACMI)		2017-present

PROFESSIONAL HONORS AND AWARDS:

RESEARCH

Distinguished Paper Award – Finalist	AMIA Annual Symposium	2006
Distinguished Paper Award	AMIA Annual Symposium	2007
Distinguished Paper Award – Finalist	AMIA Annual Symposium	2008
Stanford Award	American Physical Therapy Association, Education Section	2010
Best of AMIA 2012	AMIA Annual Symposium	2012
Distinguished Paper Reviewer	AMIA Annual Symposium	2013
Distinguished Paper Reviewer	AMIA Annual Symposium	2014

OVERALL/OTHER

Dean's List	Cornell University	1997-2000
Community Spirit "Innovation in Service" Award	Cornell University	2000
Faculty Recognition Award	Duke University Doctor of Physical Therapy Program	2003
Forty Under 40	Indianapolis Business Journal	2015
Center for Biomedical Informatics Outstanding Investigator Award	Regenstrief Institute	2016
Duke Doctor of Physical Therapy Distinguished Alumni Award	Duke University Doctor of Physical Therapy Program	2017
Fellow, American College of Medical Informatics (ACMI)	American Medical Informatics Association	2017
Technology and Innovation Award	American Physical Therapy Association, Health Policy and Administration Section	2018

PROFESSIONAL DEVELOPMENT:

Clinical Logical Observation Identifiers Names and Codes (LOINC) Meeting	Intermountain Healthcare, Salt Lake City, UT	June 2-4, 2005
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Sept. 26-27, 2005
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Oct. 23-26, 2005
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 21, 2006
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Nov. 11-15, 2006
LOINC and International Classification of Functioning, Disability, and Health Meeting	National Center for Health Statistics (NCHS) and Centers for Disease Control (CDC), Washington, DC	Dec. 11-12, 2006
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Jan. 4-6, 2007
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	May 13-14, 2007
Indiana University Federal Relations Meeting	Department of Defense, Washington, DC	July 26, 2007

LOINC Meeting	National Library of Medicine (NLM), Atlanta, GA	Sept. 19-20, 2007
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Oct. 10-12, 2007
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Chicago, IL	Nov. 11-14, 2007
National Library of Medicine (NLM) and Health Level Seven (HL7) Lab Orders Project Meeting	National Library of Medicine (NLM) and Health Level Seven (HL7), Washington, DC	Dec. 13, 2007
Health Level Seven Meeting	Health Level Seven (HL7), San Antonio, TX	Jan. 14-16, 2008
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Jan. 31-Feb. 1, 2008
Health Level Seven Meeting	Health Level Seven (HL7), Phoenix, AZ	May 8-9, 2008
Standards Development Organization (SDO) Summit	SDO Charter Organization (SCO), Washington, DC	June 18-19, 2008
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	July 10-11, 2008
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Nov. 9-12, 2008
Health Level Seven Meeting	Health Level Seven (HL7), Orlando, FL	Jan. 13-15, 2009
Clinical LOINC Meeting	Intermountain Healthcare, Big Sky, MT	Jan. 29-31, 2009
American Physical Therapy Association Combined Sections Meeting	American Physical Therapy Association (APTA), Las Vegas, NV	Feb. 9-12, 2009
Physical Therapy and Society Summit (PASS)	American Physical Therapy Association (APTA), Washington, DC	Feb. 26-28, 2009
American Telemedicine Association Annual Conference	American Telemedicine Association (ATA), Las Vegas, NV	Apr. 27-29, 2009
Health Level Seven Meeting	Health Level Seven (HL7), Kyoto, Japan	May 11-17, 2009
American Physical Therapy Association Annual Conference	American Physical Therapy Association (APTA), Baltimore, MD	June 10-13, 2009
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 12-14, 2009
Health Level Seven Meeting	Health Level Seven (HL7), Atlanta, GA	Sept. 20-22, 2009

2009 Regenstrief Institute Open Health Methodologies Conference	Regenstrief Institute, French Lick, IN	Sept. 22-25, 2009
AMIA Annual Symposium	American Medical Informatics Association (AMIA), San Francisco, CA	Nov. 15-19, 2009
Health Level Seven Meeting	Health Level Seven (HL7), Atlanta, GA	Jan. 19-22, 2010
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Feb. 4-5, 2010
Collaborative Laboratory Conference	American Society for Clinical Laboratory Science, Clinical Laboratory Management Association, and American Association of Clinical Chemistry, Strongsville, OH	Apr. 28-30, 2010
PhenX Toolkit and LOINC Meeting	RTI International, Raleigh, NC	June 1-2, 2010
North American Collaborating Center (NACC) International Classification of Functioning (ICF) Conference	National Institutes of Health (NIH), Bethesda, MD	June 23-24, 2010
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	July 14-16, 2010
Health Level Seven Meeting	Health Level Seven (HL7), Cambridge, MA	Oct. 4-7, 2010
IHTSDO Conference	International Health Terminology Standards Development Organization (IHTSDO), Toronto, Canada	Oct. 16-20, 2010
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, Dc	Nov. 14-17, 2010
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Jan. 26-28, 2012
Health Level Seven Meeting	Health Level Seven (HL7), Buena Vista, FL	May 16-19, 2011
American Physical Therapy Association Annual Conference	American Physical Therapy Association (APTA), National Harbor, MD	June 9-10, 2011
Radlex and LOINC Meeting	Radiologic Society of North America (RSNA), Oakbrook, IL	Aug. 1-2, 2011
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 15-16, 2011
Public Health Informatics 2011 Annual Conference	Centers for Disease Control and Prevention (CDC) and the National Association of County and City Health Officials (NACCHO), Atlanta, GA	Aug. 20-24, 2011

Exploring the Future of Physical Therapy Symposium	American Physical Therapy Association (APTA), Philadelphia, PA	Sept. 9-11, 2011
Health Level Seven Meeting	Health Level Seven (HL7), San Diego, CA	Sept. 11-15, 2011
IHTSDO Conference	International Health Terminology Standards Development Organization (IHTSDO), Sydney, Australia	Oct. 9-15, 2011
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Oct. 23-26, 2011
NINDS Common Data Elements (CDE) Workshop	National Institutes of Health, Bethesda, MD	Nov. 29-30, 2011
APTA Combined Sections Meeting	American Physical Therapy Association (APTA), Chicago, IL	Feb. 8-12, 2012
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Feb. 15-17, 2012
RadLex and LOINC Meeting	Radiologic Society of North America (RSNA) Oakbrook, IL	May 9-10, 2012
Health Level Seven Meeting	Health Level Seven (HL7), Vancouver, British Columbia, Canada	May 14-17, 2012
Strategic Health IT Advanced Research Projects (SHARP) Summit on "Secondary Use"	Mayo Clinic, Rochester, MN	June 10-12, 2012
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 29-31, 2012
Health Level Seven Meeting	Health Level Seven (HL7), Baltimore, MD	Sept. 10-13, 2012
Innovation, Discovery, and Translation in Service to Health Development: Indiana Global Health Research Working Conference	Regenstrief Institute, Indiana Clinical and Translational Sciences Institute, University of Notre Dame's Eck Institute for Global Health, Indiana University Center for Global Health, Marshall, IN	Oct. 3-5, 2012
IHTSDO Conference	International Health Terminology Standards Development Organization (IHTSDO), Stockholm, Sweden	Oct. 22-28, 2012
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Chicago, IL	Nov. 4-7, 2012
Health Level Seven Meeting	Health Level Seven (HL7), Phoenix, AZ	Jan. 14-17, 2013
APTA Combined Sections Meeting	American Physical Therapy Association (APTA), San Diego, CA	Jan. 21-24, 2013

Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Feb. 13-15, 2013
IHTSDO Conference	International Health Terminology Standards Development Organization (IHTSDO), Copenhagen, Denmark	Apr. 7-10, 2013
Health Level Seven Meeting	Health Level Seven (HL7), Atlanta, GA	May 7-9, 2013
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 29-30, 2013
IHTSDO Conference	International Health Terminology Standards Development Organization (IHTSDO), Washington, DC	Oct. 7-11, 2013
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Nov. 16-20, 2013
Health Level Seven Meeting	Health Level Seven (HL7), San Antonio, TX	Jan. 20-23, 2014
WHO Forum on Health Data Standardization and Interoperability	World Health Organization, Geneva, Switzerland	Feb. 10-11, 2014
IHTSDO Conference	International Health Terminology Standards Development Organization (IHTSDO), Copenhagen, Denmark	Apr. 28-30, 2014
Health Level Seven Meeting	Health Level Seven (HL7), Phoenix, AZ	May 5-8, 2014
Health Level Seven Meeting	Health Level Seven (HL7), Chicago, IL	Sept. 16-18, 2014
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Nov. 9-12, 2014
Health Level Seven Meeting	Health Level Seven (HL7), San Antonio, TX	Jan. 19-22, 2015
APTA Combined Sections Meeting	American Physical Therapy Association (APTA), Indianapolis, IN	Feb. 4-7, 2015
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Feb. 12-13, 2015
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Washington, DC	Mar. 19-20, 2015
SNOMED International Business Meeting	SNOMED International, Copenhagen, Denmark	Apr. 26-30, 2015
Health Level Seven Meeting	Health Level Seven (HL7), Paris, France	May 11-15, 2015

Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 11-14, 2015
Medinfo 2015	15 th World Congress on Health and Biomedical Informatics, Sao Paulo, Brazil	Aug. 19-23, 2015
Health Level Seven Meeting	Health Level Seven (HL7), Atlanta, GA	Oct. 5-8, 2015
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Washington, DC	Oct. 13, 2015
SNOMED International Business Meeting and Expo	SNOMED International, Montevideo, Uruguay	Oct. 26-30, 2015
AMIA Annual Symposium	American Medical Informatics Association (AMIA), San Francisco, CA	Nov. 15-18, 2015
Health Level Seven Meeting	Health Level Seven (HL7), Orlando, FL	Jan. 11-14, 2016
APTA Combined Sections Meeting	American Physical Therapy Association (APTA), Anaheim, CA	Feb. 17-20, 2016
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Feb. 23-26, 2016
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Washington, DC	April 8, 2016
SNOMED International Business Meeting	SNOMED International, London, UK	Apr. 18-21, 2016
Health Level Seven Meeting	Health Level Seven (HL7), Montreal, Canada	May 9-12, 2016
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Aug. 24-26, 2016
Health Level Seven Meeting	Health Level Seven (HL7), Baltimore, MD	Sept. 19-22, 2016
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Arlington, VA	Oct. 13, 2016
SNOMED International Business Meeting and Expo	SNOMED International, Wellington, New Zealand	Oct. 24-28, 2016
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Chicago, IL	Nov. 12 -16, 2016
Health Level Seven Meeting	Health Level Seven (HL7), San Antonio, TX	Jan. 16 – 19, 2017

APTA Combined Sections Meeting	American Physical Therapy Association (APTA), San Antonio, TX	Feb. 15 – 19, 2017
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Arlington, VA	Mar. 6-7, 2017
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Mar. 8-10, 2017
SNOMED International Business Meeting	SNOMED International, London, UK	April 24 – 27, 2017
Clinical Information Interoperability Council Joint Meeting	Clinical Information Interoperability Council (CIIC), Washington DC	July 13, 2017
Health Level Seven Meeting	Health Level Seven (HL7), Madrid, Spain	May 8 – 12, 2017
Regenstrief/Duke-Margolis Center for Health Policy Collaborations	Duke-Margolis Center for Health Policy, Duke University, Chapel Hill, North Carolina	Aug. 8, 2017
Medinfo 2017	16 th World Congress on Health and Biomedical Informatics, Hangzhou, China	Aug. 21-25, 2017
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Sept. 26-28, 2017
Health Level Seven Meeting	Health Level Seven (HL7), San Diego, CA	Sept. 11-15, 2017
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Washington, DC	Oct. 4, 2017
SNOMED International Business Meeting	SNOMED International, Bratislava, Slovak Republic	Oct. 15-20, 2017
AMIA Annual Symposium	American Medical Informatics Association (AMIA), Washington, DC	Nov. 9-12, 2017
Health Level Seven Meeting	Health Level Seven (HL7), New Orleans, LA	Jan. 30-Feb. 2, 2018
ACMI Winter Symposium	American College of Medical Informatics(ACMI), Scottsdale, AZ	Feb. 1-4, 2018
APTA Combined Sections Meeting	American Physical Therapy Association (APTA), New Orleans, LA	Feb. 21-24, 2018
Health Standards Collaborative (HSC) Meeting	Health Standards Collaborative (HSC) Washington, DC	Mar. 15, 2018
Clinical LOINC Meeting	Intermountain Healthcare, Salt Lake City, UT	Mar. 21-22, 2018

Health Level Seven Meeting	Health Level Seven (HL7), Cologne, Germany	May 14-18, 2018
American College of Cardiology Annual Scientific Session and Expo	American College of Cardiology, Washington, DC	May 4, 2018
Data Translator Meeting	Monarch, Bethesda, MD	May 25, 2018

TEACHING:

TEACHING ASSIGNMENTS:

GRADUATE

P513	Functional Anatomy and Clinical Biomechanics	Lecture & Lab	Co-Instructor	Fall 2005-2006	38
P660	Selected Topics in Physical Therapy Practice (<i>Medical Informatics</i>)	Lecture	Guest Lecturer	Fall 2005-2008	38
P645	Evidence Based Critical Inquiry II	Lecture	Primary Instructor	Fall 2007-2008	38
T558	OT Management in Today's Health & Community Systems (<i>Electronic Health Records</i>)	Lecture	Guest Lecturer	Spring 2007-present	32
93ZM720	Medical Informatics Elective	Lecture	Co-Instructor	Fall & Spring 2008-2016 30 hrs/semester	1-6 per month
INFO 581	Health Informatics Standards and Terminologies (<i>LOINC</i>)	Lecture	Guest Lecturer	Spring 2011-2016	30 + 25 distance
INFO 667	Seminar in Health Informatics I (<i>Introduction to Terminology</i>)	Lecture	Guest Lecturer	Fall 2011-2016	20
INFO 584	Practicum in Health Information Technology	Lecture & Lab	Preceptor for Terminology Module	Summer 2013 – 2016	3
SHRS-P664	Administration and Management of Physical Therapy Services	Lecture	Guest Lecturer	Fall 2015 - present	38
INFO B582	Health Information Exchange	Lecture	Guest Lecturer	Spring 2017	Distance
PBHL E-635	Foundations of Public Health Informatics	Lecture	Guest Lecturer	Spring 2018	

POSTGRADUATE

N/A	NLM Medical Informatics Training Program	Lecture	Faculty	Fall & Spring 2005-2012 30 hrs/semester	6-8 per year
N/A	Clinical Informatics Training Program	Lecture	Faculty	2017-present	6-8 per year

MENTORING:

Mark (Ming-Chin) Lin, MD, MS	Program: Role: Project: and	PhD Candidate, University of Utah Mentor Profiling of LOINC usage across institutions enterprises to determine whether LOINC is meeting its goals	2009-2012
Maria Teresa Chiaravalloti	Program: Role: Project:	PhD Candidate, University of Calabria, Italy Mentor Effective and efficient approaches to foreign language translation of LOINC	2010-2011
Mustafa Fidahussein, MD	Program: Role: Project:	Regenstrief Medical Informatics Fellowship Mentor A corpus-based approach for automated LOINC mapping	2011-2012
Judy Gichoya	Program: Role: Project: Notifiable	Regenstrief Medical Informatics Fellowship Mentor An Evaluation of the Rates of Repeat Disease Reporting and Patient Crossover Using a Health Information Exchange-based Automated Electronic Laboratory Reporting System	2011-2012
Jianmin Wu, PhD	Program: Role: Project:	Regenstrief Medical Informatics Fellowship Mentor Impact of frequency-based LOINC mapping on electronic quality measure reporting	2012-2013
Masoud Hosseini	Program: Role: Project:	PhD Candidate, IU School of Informatics Research Committee Advisor Consolidation of CDA based Documents from Multiple Sources: A modular Approach	2013-2017
Melissa Mary	Program: Role: Project:	PhD Candidate, Université de Rouen (France) External Advisor Semantic interoperability for in vitro diagnostic: Knowledge representation and biomedical terminologies mapping	2014-2017

RESEARCH/CREATIVE ACTIVITY:

GRANTS/FELLOWSHIPS IN RESEARCH:

ACTIVE RESEARCH GRANTS/FELLOWSHIPS

Linking Complex Disease and Exposure Data to Established Data Standards

Research Triangle Institute (RTI) International	Site-Principal Investigator	5%	\$149,624	10/1/2017-9/30/2020
---	-----------------------------	----	-----------	---------------------

The goal of this project is to use the community-based data standard consensus measures for Phenotypes and Exposures (PhenX) to link existing studies and to use the linked studies to assess environmental contributions to complex diseases and conditions.

Creation, Maintenance and Distribution of Logical Observation Identifiers Names Codes (LOINC®)

National Library of Medicine (NLM)	Principal Investigator	80%	\$8,078,520	7/1/2014-6/30/2019
------------------------------------	------------------------	-----	-------------	--------------------

The major goals of this project are to maintain and enhance the LOINC database as an openly developed standard for clinical observations and claims attachments, as needed for standard administrative health transactions, and for government and private sector computer-based patient records, as well as to develop software tools to facilitate the development and public use of this database, and to continue to distribute the database and supporting tools on a no cost basis for public use.

Collaboration on Codification of IVD Tests with LOINC

bioMérieux	Principal Investigator		\$91,050	12/14/2014-12/19/2019
------------	------------------------	--	----------	-----------------------

The overall goal of this project is to support the LOINC® codification of bioMérieux in vitro diagnostics (IVD) tests.

Health Care Systems Research Collaborator - Administrative Supplement: ADAPTABLE

Duke University <small>Subcontract on Assistant Secretary for Planning and Evaluation (ASPE) award</small>	Co-Investigator	10%	\$38,613	9/30/2016-8/31/2018
---	-----------------	-----	----------	---------------------

The purpose of this project is to use the ADAPTABLE Trial to Strengthen Methods to Collect, Validate, and Integrate Patient-reported Information with Electronic Health Record Data.

Post-Acute Care (PAC)

Centers for Medicare & Medicaid Service (CMS)	Principal Investigator	5%	\$731,595	8/15/2016-8/14/2021
---	------------------------	----	-----------	---------------------

The scope of this work is to allow the creation and update of Logical Observation Identifiers Names and Codes (LOINC) for assessment data elements that will be included in the CMS Data Element Library.

COMPLETED RESEARCH GRANTS/FELLOWSHIPS

Creation, Maintenance and Distribution of Logical Observation Identifiers Names Codes (LOINC®)

National Library of Medicine (NLM)	Co-Director	45%	\$2,630,455	2/1/2003-6/30-2008
------------------------------------	-------------	-----	-------------	--------------------

The major goals of this project are to maintain and enhance the LOINC database as an openly developed standard for clinical observations and claims attachments, as needed for standard administrative health transactions, and for government and private sector computer-based patient records, as well as to develop software tools to facilitate the development and public use of this database, and to continue to distribute the database and supporting tools on a no cost basis for public use.

Creating an Indiana-Ohio Center for Traumatic Amputation Rehabilitation Research

United States Department of	Principal	30%	\$800,000	1/1/2006-4/30/2008
-----------------------------	-----------	-----	-----------	--------------------

This project proposes to establish an Indiana-Ohio Center for Traumatic Amputation Rehabilitation Research (Indiana-Ohio Center) to promote outcomes research on a population with potentially unique rehabilitation needs for long-term health and welfare. Phase I will create the Indiana-Ohio Center and will establish a nation-wide database of Vietnam veterans with traumatic amputation as phase 1 of a multiple year, three phase approach to fully testing the overarching hypothesis. Phases 2 and 3 will focus on collecting data pertaining to key outcomes indicators.

Enhancing the Interoperability of the Post Acute Care Patient Assessment Instrument with LOINC

RTI International Sub-award on Centers for Medicaid and Medicare Services Contract	Principal Investigator	5%	\$91,650	8/1/2007-9/29/2012
---	------------------------	----	----------	--------------------

In the Deficit Reduction Act of 2005, the Secretary of Health and Human Services was directed to use a standardized patient assessment instrument across all post-acute care (PAC) sites, and has now begun developing this instrument called CARE. LOINC® is a coding system developed by the Regenstrief Institute that provides universal identifies and names for laboratory tests, clinical observations, and clinical reports used in electronic transactions between independent computer systems. LOINC® has been adopted by the National Committee on Vital and Health Statistics and Consolidated Health Informatics initiative as the standard for representing federally required patient assessment instruments. The purpose of this work is to create a LOINC representation of the PAC/CARE tool and to provide CMS and associated contractors with key informatics expertise to inform the development of interoperable assessment systems, including PAC/CARE.

Indiana-Ohio Center for Traumatic Amputation Rehabilitation Research: Phase II

Ohio State University Research Foundation Subcontract on US Department of Defense award	Principal Investigator	25%	\$474,731	9/1/2007-2/29/2009
---	------------------------	-----	-----------	--------------------

Phase II of the Indiana-Ohio Center for Traumatic Amputation Rehabilitation Research will (1) continue initiatives in Phase I to nationally recruit Vietnam veterans with traumatic amputations to the registry, (2) design appropriate survey instruments to gather data on continuity of care across the life span including comorbidities, health treatment and rehabilitation issues, psycho-social factors, prosthetic issues, and educational and occupational information, (3) conduct content validity, item reduction, reliability and validity analysis of the instrument, (4) pilot test and collect preliminary data for analysis to assure the viability of the data collection instruments (5) initiate strategies to inform veterans, care-givers, providers, researchers, and policy makers on amputation issues of veterans and (6) initiate strategic, collaborative relationships that maximize the evidence-based research opportunities of the database and lead to best practice guidelines for care of veterans with traumatic amputations.

Standardizing Assessments and Supporting Health Information Exchange

Foundation of Research and Education (FORE) Subcontract on Assistant Secretary for Planning and Evaluation (ASPE) award	Principal Investigator	15%	\$70,985	9/3/2007-7/31/2010
--	------------------------	-----	----------	--------------------

Currently, the HIT standards efforts have been primarily focused on ambulatory and acute care; however, there is a unique opportunity to increase the use of standards in the post-acute and long-term care community and promote interoperability. The federal government currently requires assessment instruments to be completed and electronically transmitted by specific care settings (nursing home, home care, and inpatient rehab). These assessment instruments, if fitted with interoperability standards, would identify and make available to providers and vendors the infrastructure needed to support interoperable health information exchange. The application and dissemination of accepted standards to federally-required assessment instruments will enable post-acute and long-term care vendors and providers to develop and use HIT products that will be functional in the emerging interoperable nationwide health information network standardized. In addition, this project creates a repeatable framework for making future assessment requirements interoperable.

Nationwide Health Information Network Trial Implementation (NHIN)

DHHS/Office of the National Coordinator for Health Information Technology (ONC)	Co-Investigator	10%	\$3,699,142	10/1/2007-1/23/2010
---	-----------------	-----	-------------	---------------------

The purpose of this contract is for state, regional and non-geographic health information exchange consortia to become components of the "network of networks" that is the Nationwide Health Information Network (NHIN). Contractors will cooperatively develop specifications for, and trial implementations of, the NHIN and test these trail implementations with each other to ensure that they can all work together to implement an interoperable "network of networks" built on top of the Internet.

Accelerating Public Health Situational Awareness Through Health Information Exchanges

Centers for Disease Control and Prevention (CDC)	Co-Investigator	5%	\$2,587,529	2/6/2008-12/31/2009
--	-----------------	----	-------------	---------------------

The purpose of the contract is for state, regional and non-geographic health information exchanges to enable access to clinical care information at all levels of public health for the purposes of improved public health situational awareness and case reporting in the context of the emerging Nationwide Health Information Network (NHIN).

Indiana Clinical and Translational Sciences Institute

National Center for Research Resources (NCRR)	Co- Investigator	15%	\$21,168,775	5/1/2008-4/30/2013
---	------------------	-----	--------------	--------------------

To establish a new institute that facilitates clinical and translational biomedical research across the state of Indiana. This is an institute established by the CTSA to Indiana and Purdue Universities.

Creation, Maintenance and Distribution of Logical Observation Identifiers Names Codes (LOINC®): Interim Support

National Library of Medicine (NLM)	Principal Investigator	65%	\$77,750	7/1/2008-7/31/2008
------------------------------------	------------------------	-----	----------	--------------------

The purpose of this support is to provide bridge funding for LOINC development. The major goals of this project are to maintain and enhance the LOINC database as an openly developed standard for clinical observations, to develop software tools to facilitate the development and public use of this database, and to continue to distribute the database and supporting tools on a no cost basis for public use.

Creation, Maintenance, and Distribution of the Logical Observation Identifiers Names Codes (LOINC®)

National Library of Medicine (NLM)	Principal Investigator	65%	\$4,867,679	8/1/2008-1/31/2014
------------------------------------	------------------------	-----	-------------	--------------------

The purpose of this project is to ensure the continued maintenance of LOINC as a freely available and openly developed source of standard identifiers, names, and codes for clinical observations, clinical document types and claims attachments sets, and individual questions being asked as part of claims attachments for use in standard administrative health transactions and government and private sector computer-based patient records.

NCRR ARRA Supplement - Translational

National Center for Research Resources (NCRR)	Co-Investigator	10%	\$247,498	4/22/2010-4/21/2012
---	-----------------	-----	-----------	---------------------

A fundamental challenge to interoperable health information exchange between clinical and research systems is the lack of a standardized representation of the data elements so that the systems understand their meaning and can store them appropriately. By representing the widely applicable variables of PhenX and PROMIS in LOINC, we will enable a shared "master catalog" among clinical and research systems.

Indiana Prospective Outcome Systems Using Patient-Specific Electronic Data to Compare Tests and Therapies (PROSPECT)

Agency for Healthcare Research and Quality (AHRQ)	Co-Investigator	10%	\$8,422,410	9/30/2010-9/29/2013
---	-----------------	-----	-------------	---------------------

The PROSPECT grant is focused on building a sustainable and flexible electronic infrastructure to drive decades of future comparative effectiveness research (CER) within busy clinical environments, supporting a wide array of study designs and priority conditions. The pilot CER study is centered on Alzheimer's disease.

Southeastern Minnesota Community Healthcare Information Technology Collaboration

Mayo Clinic Subcontract on Department of Health and Human Services award	Co-Investigator	3%	\$649,000	4/1/2011-9/15/2013
---	-----------------	----	-----------	--------------------

The goal of the Southeastern Minnesota Beacon Community is to expand availability of electronic health records and health information exchange to a) enhance patient involvement in the management of chronic illness; b) improve disease metrics and quality of life for patients diagnosed with diabetes or childhood asthma; c) reduce costs associated with hospitalization and emergency services for patients with diabetes or childhood asthma; and d) address health disparities for underserved populations and rural communities.

Buttressing LOINC for Coming Growth

Regenstrief Foundation	Principal Investigator	1%*	\$1,005,000	7/1/2011-6/30/2014
------------------------	------------------------	-----	-------------	--------------------

LOINC has been widely adopted in both the public and private sectors, within the United States, and internationally. It has tangible and practical effects on the care system by facilitating the information flow needed to deliver and manage healthcare in real-world systems, with payoffs that will increase with growing adoption. As the winds are gathering for rapid growth in LOINC adoption, including new federal initiatives, this proposal seeks to buttress the LOINC project by supporting software, infrastructure, and clinical content development.

*No PI salary support

Interoperable Data Exchange with LOINC®: Learning from the Crowd

Indiana Clinical and Translational Sciences Institute	Co-Principal Investigator	1%*	\$80,000	3/1/2012-2/28/2014
---	---------------------------	-----	----------	--------------------

This project will enhance the RELMA mapping program with features that will tap into the “wisdom of the crowd” of the LOINC community and also provide a peer-review feedback mechanism.

*No PI salary support

SHARP Area 4: Secondary Use of EHR Data

Mayo Clinic <small>Subcontract on Office of the National Coordinator for Health Information Technology award</small>	Principal Investigator	10%	\$250,019	4/1/2012-9/30/2013
---	------------------------	-----	-----------	--------------------

Mayo Clinic's SHARP project will enhance patient safety and improve patient medical outcomes through the use of an electronic health record (EHR). Traditionally, a patient's medical information, such as medical history, exam data, hospital visits and physician notes, are inconsistently stored in multiple locations, both electronically and non-electronically. With a vision of solving this issue, the project aims to efficiently leverage EHR data to improve care, generate new knowledge, and address population needs.

Analysis of Enhanced Automated Mapping of Local® Clinical Codes and Terms

Siemens Medical Solutions USA, Inc	Principal Investigator	10%	\$64,000	8/30/2013-9/15/2013
------------------------------------	------------------------	-----	----------	---------------------

The purpose of this study is to develop and evaluate automated methods of identifying likely “best matches” between terms in local clinical systems and terms in standardized vocabularies in order to improve the efficiency and consistency of the mapping process. These automated methods will employ approximate string comparators, parsing algorithms, statistical methods, machine learning techniques, and an enhanced scoring system. The substrate for these automated methods will be de-identified data extracted from clinical result messages from INPC institutions.

Unification of LOINC® Radiology and the RadLex Playbook: Phase I

Radiologic Society of North America (RSNA) <small>Subcontract on National Heart, Lung, and Blood Institute award</small>	Principal Investigator	10%	\$128,759	09/30/2013-9/29/2015
---	------------------------	-----	-----------	----------------------

The goal of this project is to undertake an initial effort to unify LOINC Radiology and RadLex Playbook into a single integrated terminology. These two terminologies share in common a standardized nomenclature for naming radiology procedures. LOINC is a broader standardization that encompasses laboratory and other medical procedures, while Playbook focuses on the domain of radiology. A harmonization effort will provide a common information model and a single governance process for terms that describe radiology orders and results.

Building an Empiric Common LOINC® Laboratory Orders Set for Ambulatory Care

California Healthcare Foundation	Principal Investigator	5%	\$31,044	11/25/2013-5/23/2014
----------------------------------	------------------------	----	----------	----------------------

The overall objective of this project is to provide critical data and analytics that enables creation of a timely, empirically derived, and consensus-vetted revision of the LOINC Top Orders list. To accomplish this aim, we will mine data from the Indiana Network for Patient Care (INPC), the nation's longest tenured and most comprehensive health information exchange. These data will provide the substrate for developing a list of the most commonly ordered laboratory tests. The INPC data will be added to 3-8 other sources (not funded by this

proposal) and then fed into a consensus-based review by laboratory and clinical data standards experts to be coordinated by the Standards and Interoperability (S&I) Framework of the Office of the National Coordinator for Health Information Technology (ONC). By defining such a list in a standard nomenclature, LOINC, electronic health record (EHR) systems can vastly reduce the complexity and cost of electronically ordering tests from clinical laboratories.

**Creation, Maintenance and Distribution of Logical Observation Identifiers Names Codes (LOINC®):
LOINC Bridge II**

National Library of Medicine (NLM)	Principal Investigator	65%	\$385,143.75	02/14/2014- 07/31/2014
---------------------------------------	---------------------------	-----	--------------	---------------------------

The purpose of this support is to provide bridge funding for LOINC development. The major goals of this project are to maintain and enhance the LOINC database as an openly developed standard for clinical observations, to develop software tools to facilitate the development and public use of this database, and to continue to distribute the database and supporting tools on a no cost basis for public use.

Preparing the APTA Physical Therapy Outcomes Registry for Interoperable Data Exchange with LOINC®

American Physical Therapy Association (APTA)	Principal Investigator	5%	\$50,412.37	11/1/2014- 4/30/2015
---	---------------------------	----	-------------	-------------------------

The overall objective of this project is to prepare the APTA Physical Therapy Outcome Registry for effective and efficient data exchange from many independent clinical systems using widely adopted data standards.

FHIRing up LOINC Subsets

Regenstrief Foundation	Principal Investigator	5%	\$32,000	2/1/15-12/31/15
------------------------	---------------------------	----	----------	-----------------

In this project, we are going to leverage the emerging open source HL7 FHIR standard to deliver key LOINC subsets as FHIR value sets. The value sets will be available in both JSON and XML formats through a restful interface that complies with the FHIR standard.

Unification of the Radlex Playbook and LOINC into a Single Unified LOINC/Radlex Model: Phase II

Radiologic Society of North America (RSNA)	Principal Investigator	5%	\$117,566	9/30/2015- 9/30/2017
---	---------------------------	----	-----------	-------------------------

Subcontract on National Heart, Lung, and Blood
Institute award

The goal of this project is to undertake an initial effort to unify LOINC Radiology and RadLex Playbook into a single integrated terminology. These two terminologies share in common a standardized nomenclature for naming radiology procedures. LOINC is a broader standardization that encompasses laboratory and other medical procedures, while Playbook focuses on the domain of radiology. A harmonization effort will provide a common information model and a single governance process for terms that describe radiology orders and results.

IVD Device Infectious Disease LOINC Mapping Manual

Food and Drug Administration (FDA)	Principal Investigator	4.81%	\$130,000	8/10/2017- 7/30/2018
---------------------------------------	---------------------------	-------	-----------	-------------------------

The goal of this project is to develop and publish an *in vitro* diagnostic (IVD) Device Infectious Disease LOINC Mapping Manual in order to provide definitive guidance on linking the test result output from infectious disease IVD tests to the appropriate LOINC codes.

NKDEP Chronic Kidney Disease (CKD) Care Plan

National Institutes of Health – National Institute of Diabetes and Digestive and Kidney Diseases	Principal Investigator		\$20,875	8/15/2017- 8/14/2018
---	---------------------------	--	----------	-------------------------

Support for development of a CKD care plan template, including identifying data standards & messages & technical guidance for use of a template selection model.

Indiana Clinical and Translational Sciences Institute: Administrative Supplement to Create LOINC Equivalence Groups

National Center for Advancing Translational Sciences	Co-Investigator	10%	\$930,344	9/23/2016- 6/30/2018
--	-----------------	-----	-----------	-------------------------

The goal of this proposal is to create a flexible, extensible, and computable mechanism for rolling up LOINC codes into clinically relevant equivalence groups that enable more efficient processing and aggregation of laboratory and other data from diverse health IT systems.

PENDING

Standardizing and Evaluating the Representation of Social Determinants of Health-Related Data in the EHR

DHHS, Office of the National Coordinator (ONC)	Principal Investigator	\$65,942	04/01/2018- 03/31/2020
--	---------------------------	----------	---------------------------

Create new codes in LOINC, where necessary, that correspond to the set of social determinants proposed in this project; Gather these codes into a group that is easily identifiable and accessible in the overall terminology; and Contribute to and validate the implementation specification related to the overall set of codes.

SUBMITTED BUT NOT FUNDED RESEARCH GRANTS/FELLOWSHIPS

Standardizing the representation of social determinants of Health-related data in the EHR

Office of the National Coordinator (ONC)	Principal Investigator	\$66,353	09/05/2016- 09/04/2017
---	---------------------------	----------	---------------------------

Create new codes in LOINC, where necessary, that correspond to the set of social determinants proposed in this project. Gather these codes into a group that is easily identifiable and accessible in the overall terminology. Contribute to and validate the implementation specification related to the overall set of codes.

Precision Medicine Translator Biomedical Data Translator: Technical Feasibility Assessment and Architecture Design Projects

National Center for Advancing Translational Sciences (NCATS)	Co-Principal Investigator	\$2,807,177	09/1/2016- 08/31/2018
--	------------------------------	-------------	--------------------------

In this grant, we will identify and assess three key informatics gaps in connecting the knowledge: disease symptoms and drug side effects; drugs, drug targets and lab tests; and drug interactions, drug indications and side effects, and molecular mechanisms.

Informatics Collaboratory for Health (IC4H)

National Institutes of Health (NCATS)	Co-Investigator	\$1,785,565	11/01/2017- 10/31/2022
--	-----------------	-------------	---------------------------

Regenstrief Institute will support the project management, data management, and stakeholder communication aspects of the proposed work under Aim 2.

Big Data to Knowledge (BD2K) Community-Based Data and Metadata Standards Efforts (R24)

National Institute of Health (NIH)	Principal Investigator	\$1,077,185	07/01/2017- 06/30/2022
---------------------------------------	---------------------------	-------------	---------------------------

The goal of this proposal is to catalyze the representation of key social determinants of health (SDH) variables in LOINC. We will create an advisory group to help identify, prioritize, and propose relevant SDH measures, and will substantially enrich the content in LOINC. Representing SDH content in LOINC will enable more efficient sharing and use of this data across diverse clinical, population, and research IT systems.
